April 2011

Dear Friends,

I am happy to write this letter of endorsement for MOT South Africa, as they apply for funding and other forms of support.

As an organisation which 'empowers youth to make their own choices and to show courage – courage to live, courage to care, courage to say no, MOT SA is playing an important role with a very important part of our South African society – our youth.

With so many challenges facing the youth of our nation, it is important that they have access to systems of support which are attuned to those challenges. We often say the youth are the future of our country – but that future is on our doorstep. They are making decisions today which will go with them for the rest of their lives.

MOT SA's commitment to give youth the tools to take decisions courageously and with care for themselves and others will assist our country moving forward as a more caring and compassionate society – where the common good and abundant life for all is an important goal.

I would encourage support for MOT SA and I wish them well in this important aspect of equipping our youth for both the present and the future.

Yours in the service of Christ,

Thabo Cape Town
